Activity 6:

Memory game

In this activity, we'll teach you a memory game related to the vocabulary of the land of *falles*!

On the next page, you'll find various cards with words related to the world of *falles*. As you'll see, all of them are repeated, that is, **they have an identical pair!**

How do you play? First, cut out the cards individually, turn them all over face down, and then take turns to **look for the pairs**, flipping over only two cards at a time.

In addition, pay attention to how all the words are written in different languages. Do you want to know what they are? In the following table, you can see the abbreviation we use for each language:

Language	Abbreviation
